

Imagine...

... waking up in a pretty and fresh apartment... taking a refreshing dip in the sea just a few steps away or going for an early morning jog in the pine forest around the corner.... then meeting your colleagues for a sumptuous homemade breakfast in a beautiful garden.... having your brainstorming session in a light and airy meeting room that reminds you more of your country villa than your grim office building... ... enjoying your coffee break reclining on a sofa in a small oasis... and having lunch admiring a breathtaking view of the sea and mountains of Southern Greece...

How can you possibly fail to achieve the best possible results for your meeting or seminar under such ideal conditions?

Add to the above...

.... the discreet yet constant care of Daphne's Club personnel, whose philosophy is to make you feel comfortable and serene throughout your stay; and
.... state-of-the art business services including fully-equipped business desk, wireless internet access, video projector, OH projector and flip-chart, so that you will never feel you miss the conveniences of your own office...

.... and the stage is set for a memorable business event!
