

Female escape!

Take your friends, daughters, mothers or colleagues and escape for a while to the poetic village of Sykia, where **Daphne's Club** is organising, in cooperation with the Viennese oriental dance studio **Studio Chiftetelli**, a two-day belly dancing workshop for ladies only!

Belly dancing is an ancient female dance, different versions of which have survived in the Middle East, North Africa and the Iberian Peninsula. Women used to dance it together, hidden from the eyes of their men, to share their inner secrets, passions and pain...

Daphne's Club and **Studio Chiftetelli** invite you today to a voyage of discovery to the realms of the female East! For two days escape daily modern life and let yourself be seduced by the sounds of drums beating to exciting rhythms, the fun of hips lifting and dropping, the pleasure of sharing new experiences with old and new friends!
